the question was difference between function and functional not definition of functional i guess the difference is when we refer to functional we mean a set of possible functions but when we say

in object oriented programming we might say the core concepts are encapsulation inheritance polymorphism what would that be in functional programming

i ve been mainly exposed to oo programming so far and am looking forward to learning a functional language my questions are when do you choose functional programming over object oriented

23 aug 2008 in my second year of university we were taught haskell i know almost nothing about it and even less about functional programming what is functional programming why and xor where

16 feb 2009 also see what is the difference between procedural programming and functional programming can someone give me examples of functional programming vs

11 feb 2011 possible duplicates functional programming and non functional programming what is functional reactive programming what is the difference between procedural programming and

9 aug 2015 can someone give an example that would point out the difference between a function and a functional in a very simple way

9 dez 2010 functional and procedural programming are both in that sense structured paradigms functional programming is also declarative programming the structure given to your code

25 most modern languages are in varying degree both imperative and functional but to better understand functional programming it will be best to take an example of pure functional language

i ve read the wikipedia articles for both procedural programming and functional programming but i m still slightly confused could someone boil it down to the core
